Simulations or interactive learning:

Teachers use various ICT tools for conducting workshops on latest methods such as simulations and docking software etc. With the aid of X-cology and Micromedex the gap between the theoretical knowledge and practical knowledge have been overcome.

HEALTH EDUCATION BUREAU

HEALTH EDUCATION BUREAU

Objective
"To bring innovative & affordable health and education products, so as to make health and education in reach of every Indian"
Genesis
The Health Education Bureau was launched, with the blessings of former President Dr. APJ Abdul Kalam. Its prime aim is to bring innovative & affordable health education products, so as to make health education in reach of every Indian.

About Experimental Pharmacology Series (Ex-Pharm Series)

This is a computer assisted learning package containing various programs which simulate animal experiments in Pharmacology. These programs can be used to demonstrate drug on different animal systems. The package is user friendly, highly interactive and full of animated sequences which make simulation appear realistic. The current version of Ex-Pharm series consists of following computer simulated experiments:

Experiments List

1. Experiment on Effects of various drugs on Rabbit's eye.
 - Epinephrine
 - Atropine
 - Ephedrine
 - Physostigmine
 - Lignocaine
2. Study of Analgesic activity with the help of "Tail Flick Apparatus".
3. Study of Antihistaminic drugs with the help of "Histamine Chamber".
4. Study of Muscle Relaxant activity with the help of "Rotarod Apparatus".
5. Study of CNS Depressants & Stimulants Using "Actophotometer".
6. Study of Analgesic activity with the help of "Hot Plate Apparatus".
7. Study of Drugs acting on CNS Using "Pole Climbing Apparatus".
8. Study of Drugs acting on CNS using "Elevated Plus Maze".
9. Study of anticonvulsant activity using "Electro Convulsometer".
10. Experiment on Effect of various drugs on Isolated Frog's Heart. (DRC - Dose Response Curve)
 - Epinephrine
 - Norepinephrine
 - Isoprenaline
 - Calcium Chloride
 - Propranolol
 - Acetylcholine
 - Potassium chloride
 - Atropine sulphate

11. Experiment on Bioassay of Histamine on the Stomach of Guinea Pig.

12. EXPERIMENTS ON ISOLATED FROG HEART
Effect of chemical stimuli on the isolated frog heart.

3. Problem solving Methodology

3.1. Analysis and Reasoning:

Few questions in examination are based on analysis and reasoning. Free internet access in the library and wifi facilities in campus promotes the habit of self learning and discussion. Faculties prepare online quiz for students after the completion of each unit with the help of GOOGLE FORMS.

3.3 Research Activities:

Research activities are conducted in each Department under the guidance of senior faculty where the students of different semester get knowledge about emerging area and help them to promote in Research aptitude. The third and final year students are encouraged to get acquainted with reading and understanding research papers and technical terms given in quality literature and understand its implementation in emerging technologies and recent advancement. Significant results were observed and students developed their habit to refer classic papers from reputed journals.
